

ONBOARD. TRAIN. PERFORM.

ABOUT US

Ingenuiti LMS offers a straightforward approach to learning management. Designed for what is needed, without the extra clutter or cost.

Affordable, Simple & Accessible

A learning management system created to empower inclusive learning access.

WHY CHOOSE US?

- ✓ **Content Delivery:** Supports various content types including SCORM packages, videos, PDFs, and hyperlinks. Allows for component-based course assembly using 'activities'.
- ✓ **User Management:** Allows user management and bulk imports via CSV or Excel. Supports user identification without requiring email addresses. Offers user roles with specific access permissions.
- ✓ **Course Management:** Provides tools to manage and categorize courses. Supports course settings like estimated duration, enforced activity order, thumbnails, and completion timelines. Offers version control for course activities.
- ✓ **Integration and Accessibility:** Supports Single Sign-On (SSO) with providers like Google and Okta. Offers multi-language support.

Customization

Allows customization of the application logo and primary colors.

Reporting and Analytics

Provides course completion reports and activity-specific reports. Offers detailed CMI data export for SCORM packages.

Multi-tenant system

Supports a multi-tenant system where different clients can sign up and have their own siloed environment.
