eLearning Localization

eLearning Localization Services That Ensure Understanding

Translating training and eLearning content can significantly enhance learning outcomes and retention by making materials accessible to all employees regardless of their native language. This exclusivity fosters an engaged learning environment, where everyone feels empowered to understand and apply key concepts.

Providing training in multiple languages also strengthens collaboration and communication, leading to better comprehension and improved performance across the organization.

When Training is Delivered in Someone's Native Language, A Measurable Impact Can Be Seen in Three Critical Areas:

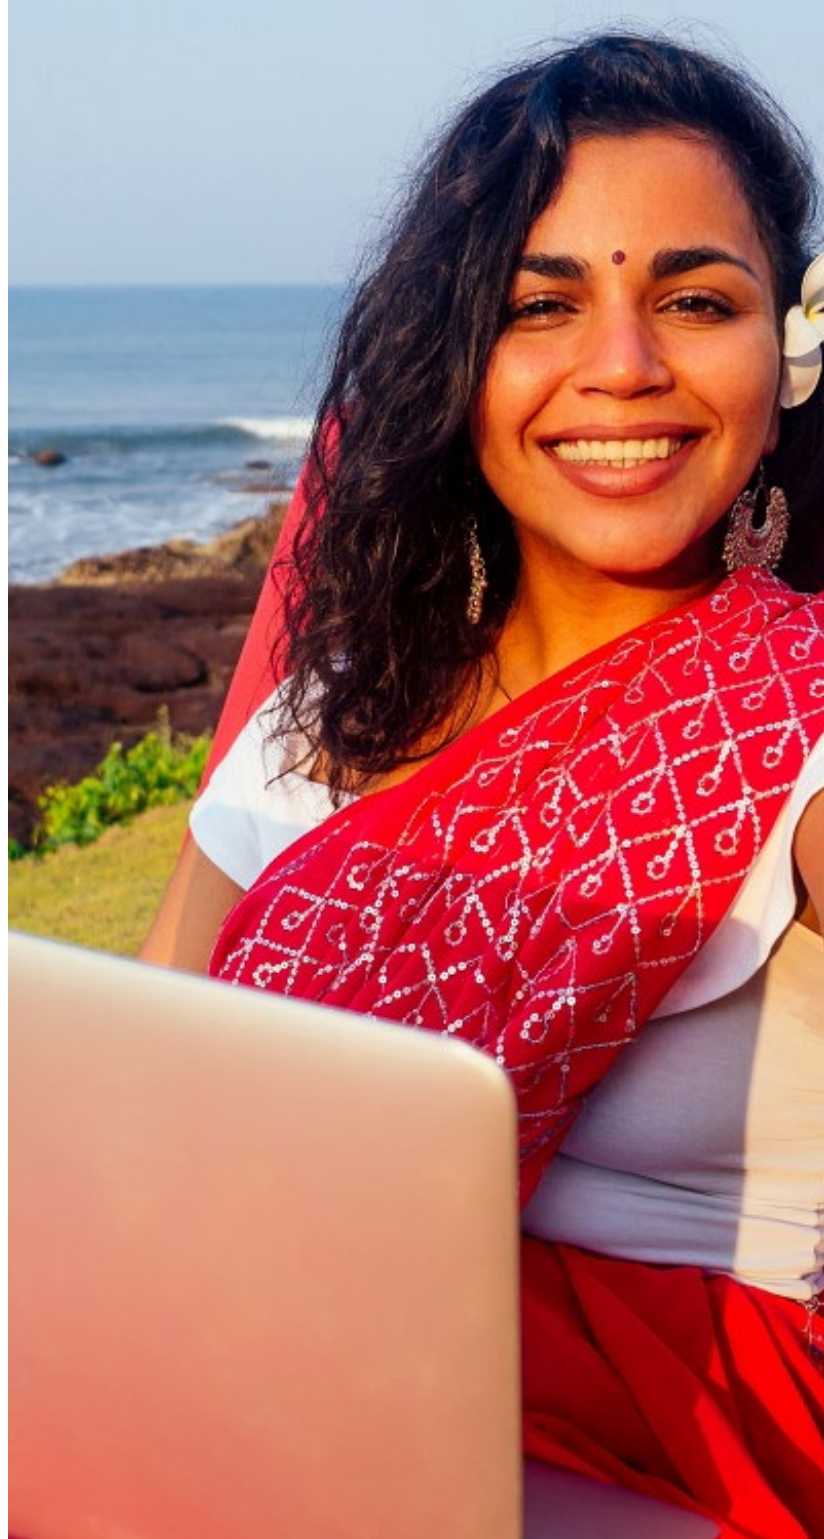

30-60% Increased Retention

15-30% Boost in Productivity

60% Higher Engagement Rates

Translation Services

Human Centered, Technology Empowered

Ingenuiti speaks your business language in any language you need. We have translated over 1 BILLION words for hundreds of clients over the past 40 years.

We go beyond translation and focus on the localization of your content to ensure understanding across cultures and regions.

Our ethos is that translation should be Human Centered and Technology Empowered. This approach allows us to maximize flow and tone of voice, while also driving consistency and cost efficiencies.

Ingenuiti can partner to bring your content to life in all languages and regions, across all content types, including:

- Videos
- eLearning
- Websites
- Marketing materials
- SOPs and job aids
- Software
- Clinical and regulatory documentation
- Compliance and legal content

Our white-glove account management and high-touch project management approach is a signature trait of how we provide service. We would love the opportunity to show you our partnership style as we help you transform your content for your global audience.

We are passionate about supporting companies in their global communication efforts

A Learning Management System Created to Empower Inclusive Learning Access

Are you interested in providing better access to training for all your employees regardless of their role? Many hourly and seasonal employees do not have company email addresses.

Most volunteers that support our NGOs face the same challenges. On top of that, the cost per seat for traditional LMS platforms can be prohibitive to providing inclusive training access.

That's why Ingenuiti has developed a solution that requires no email and costs less than a cup of coffee per user per month.

Accessible

Employees, contractors, and volunteers no longer need to have a corporate email address to access your learning content! Maintain compliance without the extra cost and IT headaches associated with most LMS platforms.

Affordable

At just \$18 per seat per year, training employees and ensuring compliance becomes incredibly cost-effective. Plus, the ability to easily reassign seats to new users helps mitigate some of the challenges in high-turnover roles.

Simple

An LMS that includes only what is needed to effectively train employees. A user-friendly management dashboard and a learner-friendly training dashboard empowers training without added complexity.
